Software Engineer traineeship (education to full stack developer)

Would you like to become a software engineer?

Are you passionate and eager to learn about software development?

Are you willing to follow an intensive and unique traineeship?

If you do not live in the Brainport region of Eindhoven (for example, you do not live in the Netherlands), would you be willing to work away from home for a period of time?

If your answers are "Yes" to all the questions above, continue to read and respond to our offer.

We offer:

- A monthly gross salary between €2,600 and €3,500. This depends on your education level, knowledge and experience regarding the job. Also, it's based on a 40-hour working week and additional secondary employment conditions;
- A chance to develop yourself into a full stack developer or software engineer through working on (international) projects for clients that are usually hardly accessible to you;
- A workplace within a small and personal company;
- Personal training and guidance by the most experienced software engineer/ full stack developer/ entrepreneur who built the company from scratch.

Does Jazetti suit you as your future employer?

We are Jazetti BV and we are an informal and flat organization, comprised of a small team of enthusiastic specialists. We develop various software for different types of companies. Although our main focus is collaborating with clientele within the Brainport region of Eindhoven, we have worked with companies from other regions and multinational organizations. Our clientele appreciates our knowledge, expertise and the never-say-never approach.

The Jazetti team

Margo Spoelder	**Bram van der Horst**	**Arjen Poot**	**Dennis Spoelder**
Business developer	Software tester	Software engineer	Software architect
Contract manager	Software developer	Software developer	Software engineer

We are the key players who have multiple responsibilities in all of our software projects. As our business is growing, we need to expand and strengthen our software development team.

We are seeking for a passionate and suitable candidate to fill up the Software Engineer traineeship immediately. You need to have the basic skills, the willingness to become a good software developer and the diligence to commit yourself fully to it. So, your academic degree is not the most important thing we look at. Instead, you will have to show us that you have the ambition, the knowledge and the skills to become a software engineer.

The traineeship we offer

You will be employed by Jazetti BV directly where you will receive on-the-job training. Thus, you will be assigned to a senior software engineer who will guide you intensively. Through practice-oriented cases and theory application, you will be challenged, stimulated and motivated to take your knowledge and skills to the highest level.

In addition to gaining the technical knowledge about VBA, PHP, HTML5 and Javascript, you will focus on developing the skills of collaboration, communication and presentation through a project-based working environment. Through this traineeship, we will turn you into a full stack developer. On top of that, you will receive competitive salary and fringe benefits.

A brief introduction into the traineeship,

Operating systems that you will mainly work with:

- Microsoft Windows 10;
- MacOS;
- Linux Mint;
- Ubuntu 20.04 LTS (servers).

Applications that you will mainly work with:

- Microsoft Office 365;
- Google Apps For Business;
- WordPress;
- Microsoft Power BI;
- MySQL Database.

Programming languages that you will mainly program with:

- Visual Basic for Applications;
- HTML5;
- PHP;
- Javascript;
- CSS.

You will be working with either a regional or multinational clientele. You will be delivering applications by developing a partial application with a team of developers at both the front-end and back-end development.

Your profile:

- Master or Bachelor degree in IT or another technical study is a plus;
- An affinity towards programming;
- Excellent command of the English language, Dutch is a plus;
- Willingness to invest in yourself by following an intensive training course;
- A full-time, 40-hour per week, traineeship right at the commencement of it;
- Willing to stay in the Brainport region of Eindhoven, Netherlands (if you are not living within the area);
- At the start of your traineeship, you will work at least for one (1) month in the Brainport region of Eindhoven. After that, you can work remotely from the comfort of your home.

We offer you:

- A direct contract with jazetti BV without the involvement of an employment agency;
- An intensive and unique Software Engineer traineeship;
- Competitive salary and fringe benefits;
- Jump-start your career as a junior developer;
- Career opportunities to become a (senior) Software Engineer;
- A career in Brainport Region Eindhoven (https://brainporteindhoven.com/en/).
